

## Automatic programmable adhesive tape dispenser RT9000 F (6 cutting lengths)

- SUITABLE FOR ADHESIVE AND NON-ADHESIVE TAPE
- FOLDING THE BAND ON 7mm
- OUTPUT SPEED 200mm/s
- POSSIBILITY OF LOADING TWO DIFFERENT COILS
- COUNTING OF CUTTING NUMBER
- UP TO 6 PROGRAMMABLE LENGTHS

The RT9000 F is the third automatic tape dispenser in the RT range. Just like the [RT7000](#) and [RT7700](#), this electronic dispenser is designed for the intensive and lengthy distribution of adhesive tape pieces.

This automatic adhesive dispenser has a programming system that can store up to 6 preferred cutting lengths. However, the feature that sets the RT9000 F apart from the rest of the range is its unique "fold" function, that allows for the folding of a strip of tape onto itself. This feature has been designed for the operator needing to use adhesive tape without necessarily needing to handle it and fold it manually. Thus, two distribution modes are available on this device: a semi-automatic mode and an automatic mode. This industrial tape dispenser allows for a considerable boost in productivity, which results in greater time savings and genuine working comfort.

## Caractéristiques techniques

PRODUCT REFERENCE	RT9000F
REEL DIAMETER (mm)	Quelconque
MAX ROLL WIDTH (mm)	6-60
MAX DIAMETER OF ROLL (mm)	300
CUT LENGTH (mm)	15-999
DIMENSIONS LxWxH (mm)	230 / 50
WEIGHT (kg)	2,500
